PINGZHOU

COB LED Display

Pixel Pitch:P0.93/P1.25/P1.56

Hot Selling Cabinet Size: 600X337.5mm

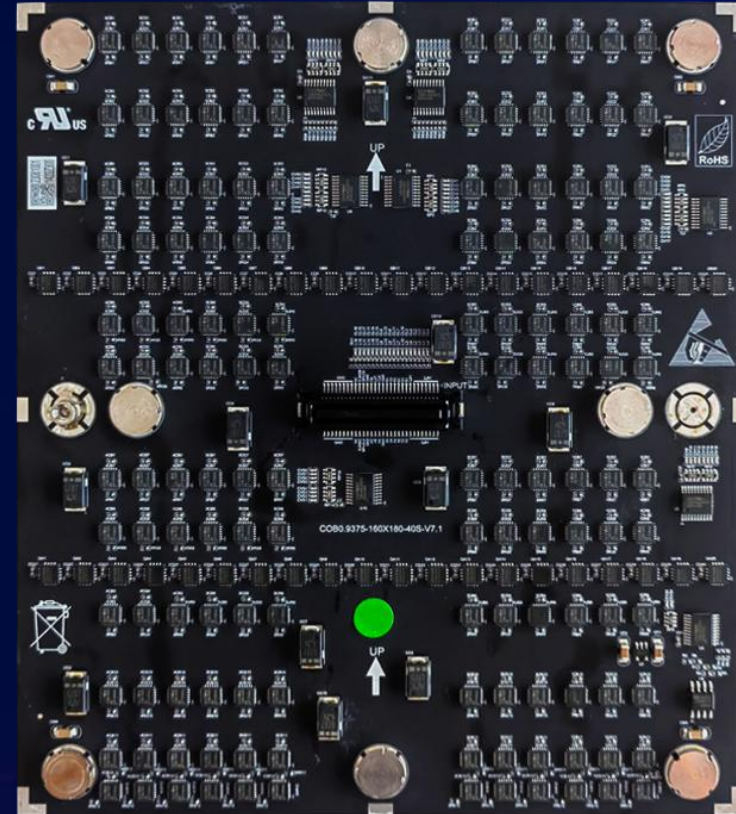

Module

PINGZHOU

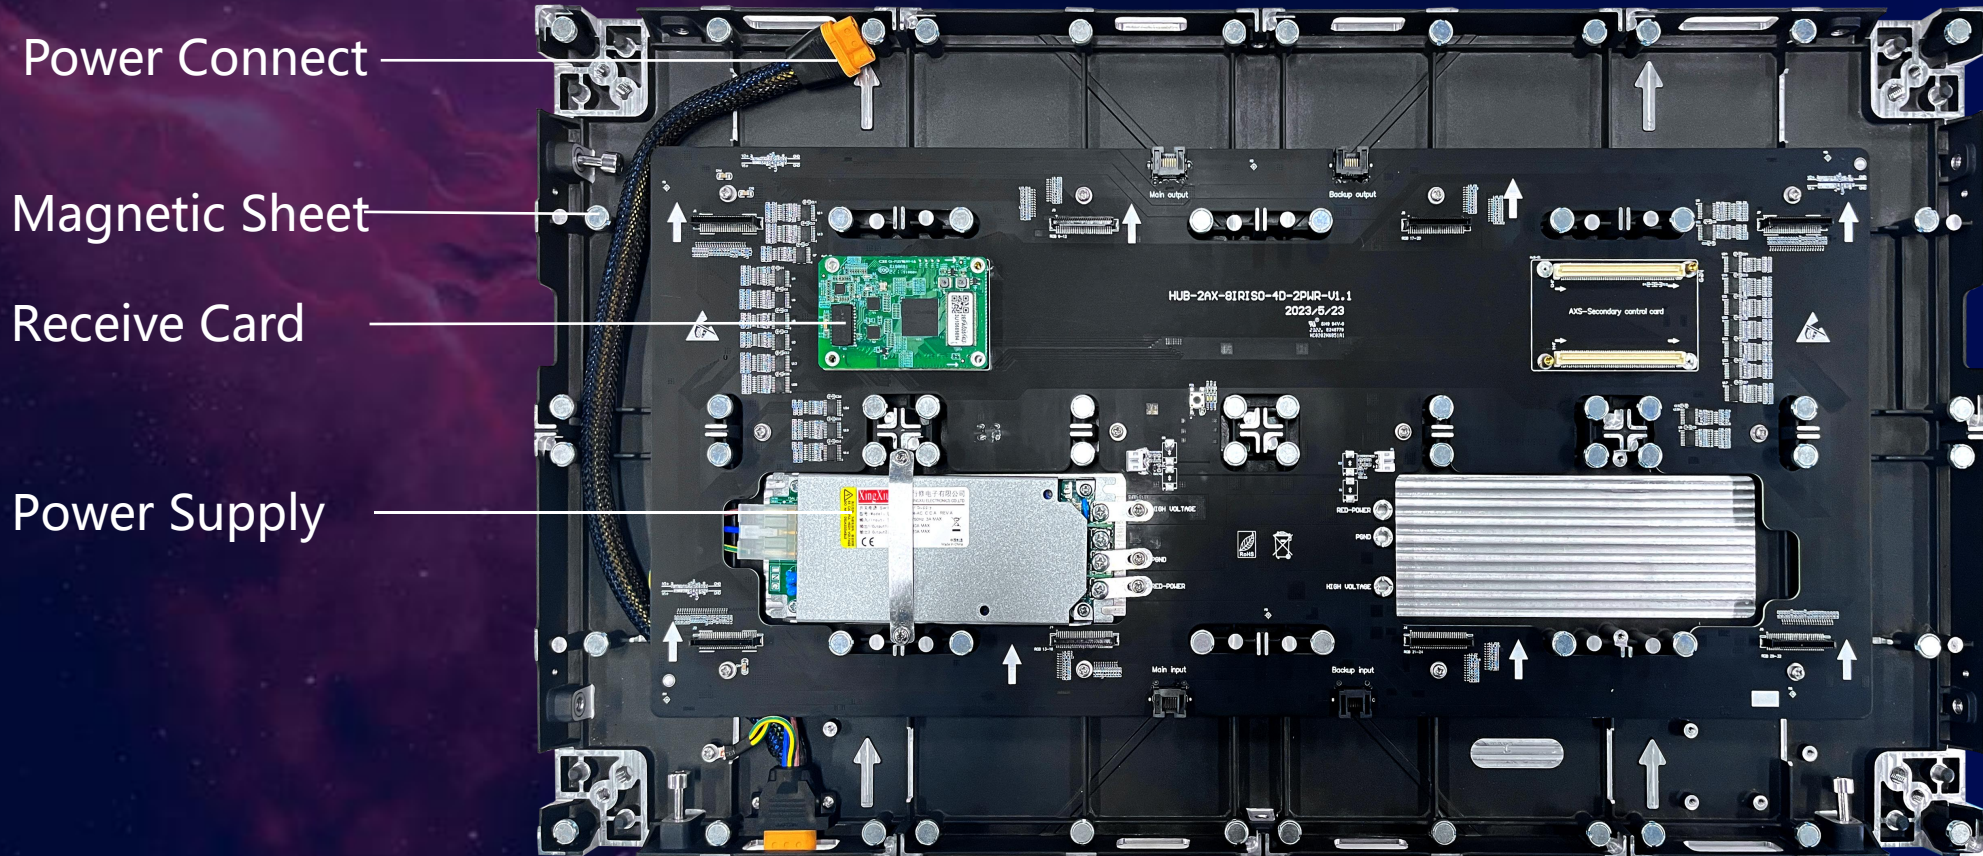

- Module Dimension: 150x168.75mm
- Module Thickness: 2mm

- Brightness: 600~800CD
- Module Surface: Composed of chips

Cabinet Details

Supports dual backup power and receive card

PINGZHOU

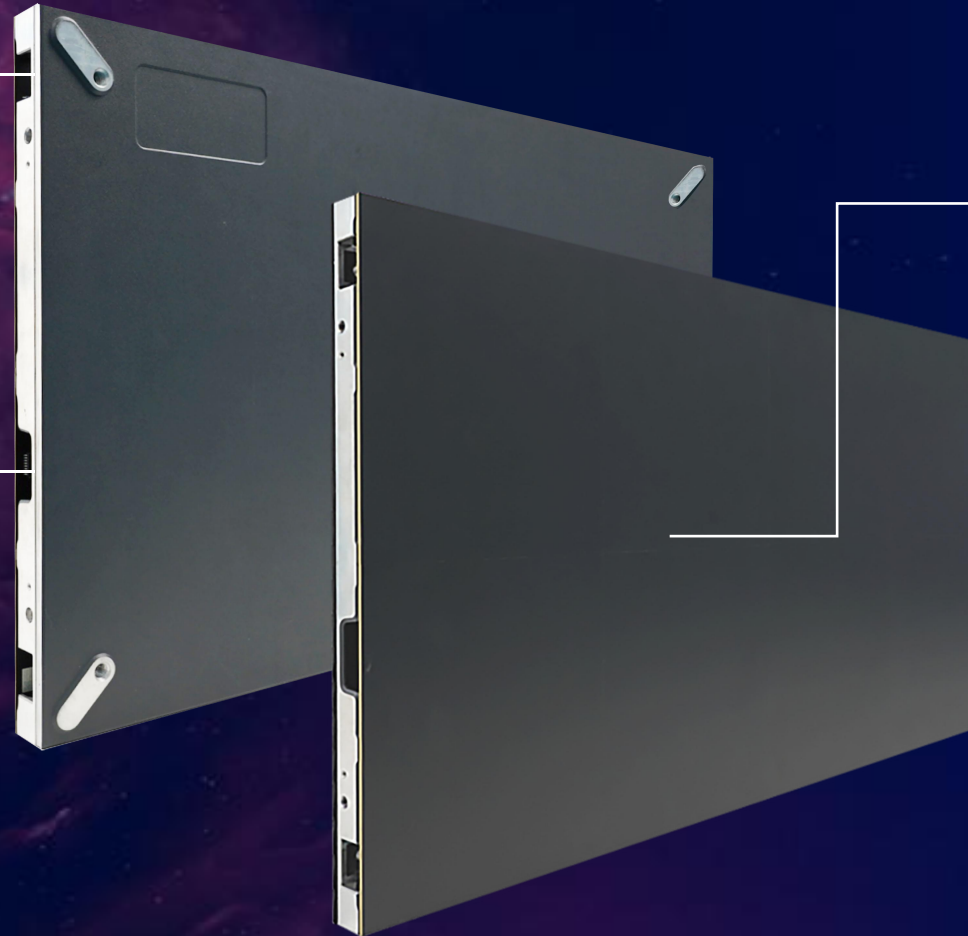

Cabinet Proportion

16:9

Material: Die cast aluminum

Connecting holes on
the left and right sides
of the cabinet

Left and right cable
holes

No lamp module
surface is composed of chips

Product Characteristics

light-Thin

Dust Prevention

Moisture-Proof

Low Power
Consumption

The Display Effect
Is Not Grainy

Strong Stability

PINGZHOU

Installation Method

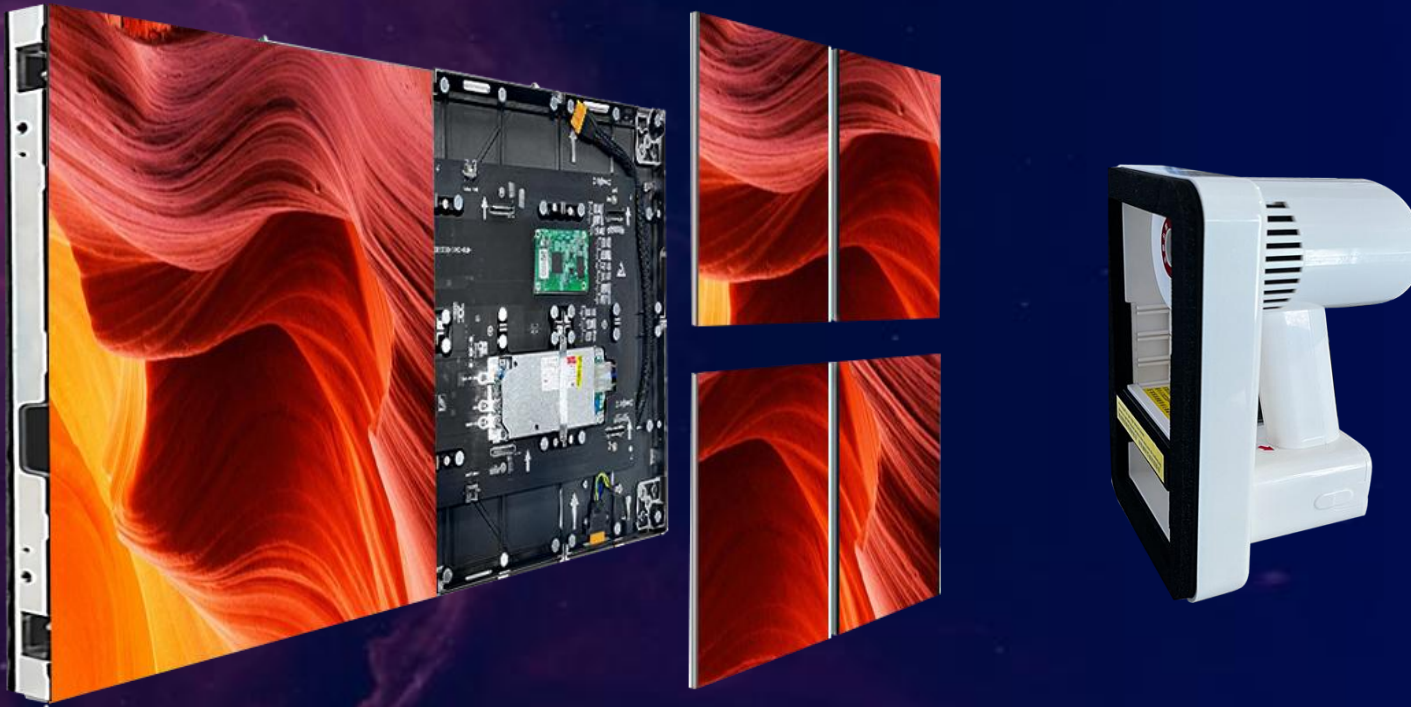

Installation Against The Wall

Installation With Steel Structure

Maintenance Method

Magnetic Front Maintenance

Use a magnetic tool to remove the module from the cabinet for maintenance

Connection Method

Tablet computer and phone
support HDMI&WIFI control

PINGZHOU

Production Line

Panasonic MSR can affix an average of **45,000** lamp beads per hour

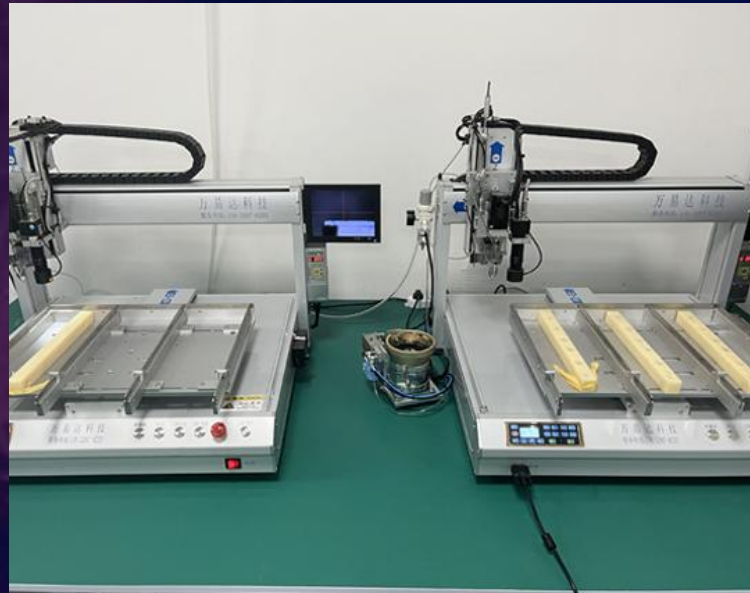

The automatic printing machine can brush solder paste an average of **300m²** per day

Reflow soldering is used to heat the module

Samsung S2 can affix an average of **80,000** beads per hour

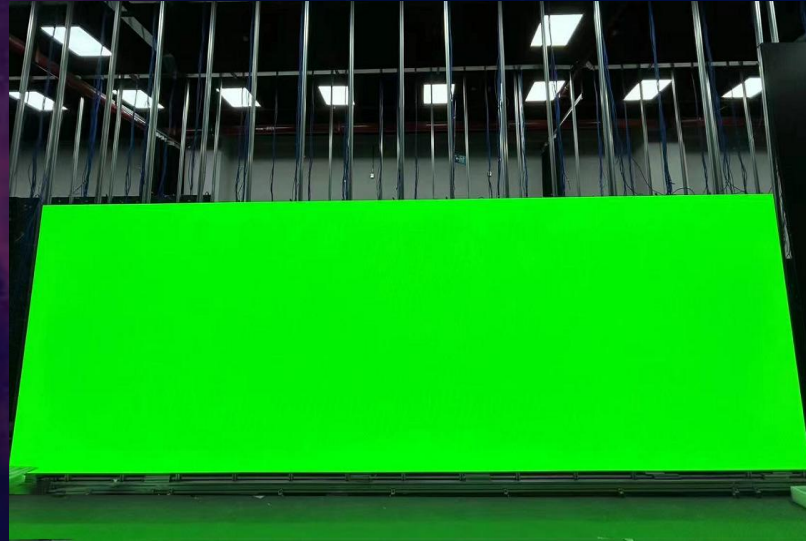

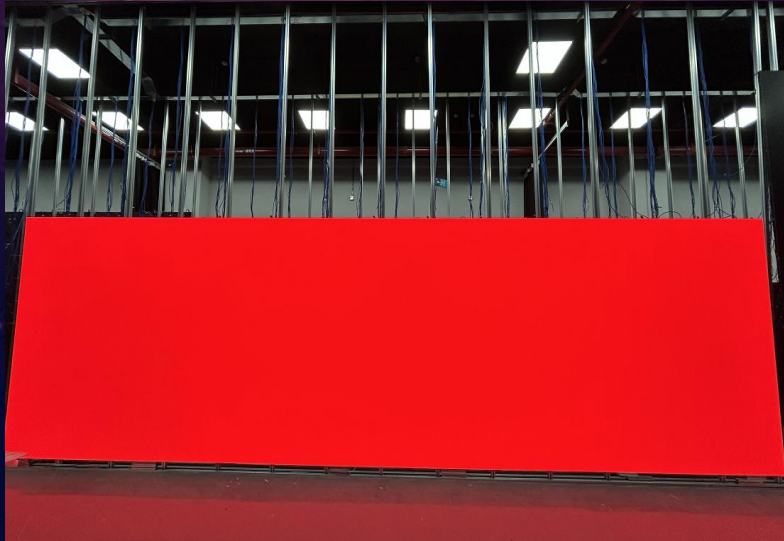

Small spacing automatic screw machine can make an average of **2000** screws per hour

Conformal coating can be sprayed with an average of **100m²** per day

Aging Test

Package And Delivery

Specifications

Pixel Pitch: P0.93/P1.25/P1.56

Cabinet Size: 600x337.5mm

Module Size: 150x168.75mm

Refresh Rate: 3840HZ

Brightness: 600~800CD
